

E line

Electric Powered Pumps

E-LINE 82-7.5-2

The Gorman-Rupp E-Line 82-7.5-2 is an electric driven wet self-priming pump set for pumping clean and dirty water and for light or non-frequent use of abrasive fluids.

PRODUCT DESCRIPTION

Gorman-Rupp 82H52 self-priming centrifugal pump
7.5 kW IE3 premium efficiency electric motor with
integrated variable frequency drive (VFD)

Control panel with mainswitch, emergency switch,
pump on/off and speed control.

For detailed
information,
please refer to
the QR code
below.

SPECIFICATIONS

Suction size : 2"

Connection suction side : Perrot Male

Discharge size : 2"

Connection discharge side : Storz, camdistance 81 mm

Solids handling capacity : 19 mm

Dimensions : 1480 mm(L)*680 mm(W)*1090 mm(H)

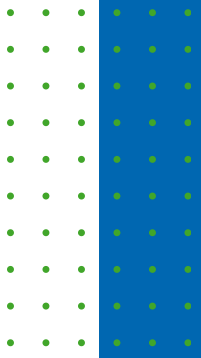

Weight : 360 kg

Maximum flow : 47,5 m³/h

Maximum discharge head: 60 mWc

E-LINE 82-11-2

The Gorman-Rupp E-Line 82-11-2 is an electric driven wet self-priming pump set for pumping clean and dirty water and for light or non-frequent use of abrasive fluids.

PRODUCT DESCRIPTION

Gorman-Rupp 82H52 self-priming centrifugal pump

11 kW IE3 premium efficiency electric motor with integrated variable frequency drive (VFD)

Control panel with mains switch, emergency switch, pump on/off and speed control.

For detailed information, please refer to the QR code below.

Electric Powered Pumps

E-LINE PAV4-22-6

The Gorman-Rupp E-Line PAV4-22-6 is an electric driven prime assisted centrifugal pump set for pumping clean and dirty water, sewage water and abrasive fluids.

PRODUCT DESCRIPTION

Gorman-Rupp 6404VA71 prime assisted vortex centrifugal pump

22 kW IE4 Super premium efficiency electric motor with variable frequency drive (VFD)

Control panel with mainswitch, emergency switch, pump on/off and speed control.

For detailed information, please refer to the QR code below.

SPECIFICATIONS

Suction size : 4"

Connection suction side : Perrot Male

Discharge size : 4"

Connection discharge side : Perrot Male

Solids handling capacity : 76,2 mm

Dimensions : 2295 mm(L)*1250 mm(W)*1660 mm(H)

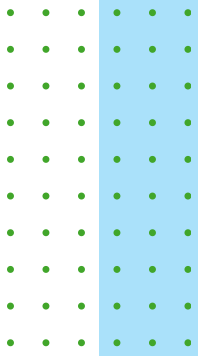

Weight : 1480 kg

Maximum flow : 215 m³/h

Maximum discharge head: 25 mWc
